

Form RI-PTE Pass-through Entity Election

GENERAL INFORMATION AND INSTRUCTIONS

For tax years beginning on or after January 1, 2019, a pass-through entity may elect to pay the state tax at the entity level at the rate of five and ninety-nine hundredths percent (5.99%).

If a pass-through entity elects to pay an entity tax under this subsection, the entity shall not have to comply with the provisions of § 44-11-2.2 regarding withholding on non-resident owners.

Using Form RI-1099E, the pass-through entity shall report the following information:

- The pass-through entity's identifying information - federal employer identification number, name and address;
- The pass-through entity's type;
- The accounting method used by the pass-through entity (**this box must be checked**):
 - If hybrid, check the box for the method of accounting that is being used for the application of the payments
- If the pass-through entity has a year end date other than 12/31, enter the fiscal year dates;
- The pass-through entity member's identifying information - social security number, name and address;
- The pass-through entity member's percent of ownership;
- The pass-through entity member's pro rata share of the state income taxes paid by the entity. This is the amount that will be allowed as a state tax credit for the pass-through entity member on his or her personal income tax return using RI Schedule W; and
- The pass-through entity member's pro rata share of the state income tax payments made by the entity as an income (addition) modification to be reported by the pass-through entity member on his or her personal income tax return using RI Schedule M. The entity will report the modification based upon the basis of accounting. (See Determining the Amount of income Required to Be Reported by the Pass-Through Entity below)

Filing Form RI-PTE

Form(s) RI-1099E must be attached to Form RI-PTE, as well as to the personal income tax return(s) filed by the pass-through entity member(s). Credit will not be allowed for the pass-through entity election until all documentation has been received and until Form RI-PTE has been filed.

Determining the Amount of the State Tax Credit for the Pass-through Entity

State tax credit shall be the amount of tax paid by the pass-through entity, at the entity level, which is passed through to the owners, on a pro rata basis.

Regardless of the Accounting Method used by the pass-through entity making the pass-through entity election, the amount of tax paid by the pass-through entity is equal to the amount calculated for line 5 of Form RI-PTE. *NOTE: the tax amount must be paid in order to receive the credit.*

Determining the Amount of the State Tax Credit for the Pass-through Entity Member(s)

To determine the amount of state tax credit for the pass-through entity member(s), multiply the state tax credit from line 5 of Form RI-PTE by the percent of ownership for each pass-through entity member. This is the amount each pass-through entity member will report on RI Schedule W when filing Form RI-1040 or Form RI-1040NR.

Determining the Amount of Income Required to Be Reported by the Pass-through Entity

Cash Basis Pass-through Entity:

The amount required to be reported as income by the pass-through entity member(s) is the member's apportioned share of the total of payments made by the pass-through entity **DURING** the tax year of the return being filed.

For example, a calendar year ending pass-through entity makes four estimated tax payments on the following dates - April 15, June 15, September 15 and December 15. The cash basis pass-through entity also makes an extension payment and a payment with the RI-PTE following the end of the calendar year.

The cash basis pass-through entity member(s) must report the apportioned share of the total of the four estimates paid during the calendar year as an increasing modification on RI Schedule M, line 2h.

In addition, a cash basis pass-through entity member(s) may take a decreasing modification on RI Schedule M, line 1v for the amount

GENERAL INFORMATION AND INSTRUCTIONS (continued)

of pass-through entity tax claimed in the prior year which was an overpayment calculated on the RI-PTE when filed.

If the pass-through entity is a cash basis entity as shown on the entity's federal return and the RI-PTE for tax year 2021 had an overpayment that was refunded, in whole or in part, to the entity, use the following to determine the decreasing modification amount.

Tax year 2021 Overpayment Carried Forward to Tax Year 2022

If the pass-through entity applied an overpayment from tax year 2021 as a carryforward to tax year 2022 and no refund was received by the entity then the individual member(s) of the entity would not include a decreasing modification for that pass-through entity's overpayment. The entity would not account for the carryforward as income eliminating the need for the individual taxpayer to offset the additional income with a decreasing modification.

Tax Year 2021 Overpayment Refunded to the Entity

If the pass-through entity's tax year 2021 overpayment was refunded to the entity, the entity would be expected to include that refund as income on its tax year 2022 corporate filings enabling the individual taxpayer to claim a decreasing modification in tax year 2022 IF the individual taxpayer previously accounted for the tax year 2021 refund as part of the payments made in calendar year 2021 AND properly claimed the payments as an increasing modification in tax year 2021. If any part of the 2021 overpayment was due to payments made within calendar year 2022, the individual taxpayer should not have accounted for those payments as part of the 2021 increasing modification because the payments were made within 2022.

Tax Year 2021 Overpayment Split Between a Carryforward and a Refund

If the pass-through entity's tax year 2021 overpayment was split between a refund and carryforward, the individual taxpayer would apply the above treatment on the allocated amount of the overpayment.

Accrual Basis Pass-through Entity:

The amount required to be reported as income by the pass-through entity is the total of payments made by the pass-through entity **FOR** the tax year of the return being filed minus any overpayment on the return.

For example, a calendar year ending pass-through entity makes four estimated tax payments on the following dates - April 15, June 15, September 15 and December 15. The accrual basis pass-through entity also makes an extension payment and a payment with the RI-PTE following the end of the calendar year.

The accrual basis pass-through entity must report the total of the four estimates, the extension payment and the payment made with the return as an increasing modification on RI Schedule M, line 2h.

If the payments made for the tax year exceeds the amount of tax on line 5, the total amount of payments must be reduced by the overpayment amount regardless of whether the overpayment is refunded or carried forward.

Credit for Taxes Paid to Another State

A similar type of tax imposed by another state on the owners' income paid at the state entity level shall be deemed to be allowed as a credit for taxes paid to another jurisdiction in accordance with the provisions of § 44-30-18.

Combined Reporting

"Combined reporting" as set forth in § 44-11-4.1 shall not apply to reporting under this section.
